

## PFAC Annual Report Form

Health Care For All (HCFA) advocates for health justice in Massachusetts by working to promote health equity and ensure coverage and access for all. HCFA uses direct service, policy development, coalition building, community organizing, public education and outreach to achieve its mission. HCFA envisions a day when everyone in Massachusetts has the equitable, affordable, and comprehensive care they need to be healthy.

### Why complete an annual report for my PFAC?

Under Massachusetts law, hospital-wide PFACs are required to write annual reports by October 1<sup>st</sup> each year. These reports must be made available to members of the public upon request. As in past years, HCFA is requesting a copy of each report which will be posted on HCFA's website, <https://hcfama.org/pfac/>. HCFA recommends using this template to assist with information collection, as well as the reporting of key activities and milestones.

### What will happen with my report and how will HCFA use it?

We recognize the importance of sharing of information across PFACs. Each year, we:

- make individual reports available online
- share the data so that PFACs can learn about what other groups are doing

### Who can I contact with questions?

Please contact us at [atappan@hcfama.org](mailto:atappan@hcfama.org) or call us at 617-275-2982.

Please email completed forms to [PFAC@hcfama.org](mailto:PFAC@hcfama.org).

**Reports should be completed by October 1, 2022.**

- Other process (Please describe below in #17b)
- N/A – the PFAC does not use agendas

17a. If staff and PFAC members develop the agenda together, please describe the process: Based on open discussion of identified issues at the PFAC meetings, hospital representation on the PFAC will coordinate with community members, to ensure that agenda items are identified and appropriate hospital representatives are invited to further discuss and provide input and to strategize appropriate and necessary actions.

17b. If other process, please describe: In addition to minutes, the PFAC maintains an action log that is reviewed at every meeting to ensure that all items are discussed until closure

2. Provide Narcan kits (and training in use) to all inpatients hospitalized for substance abuse at time of discharge

3. **Improve community outreach and coordinated referrals to ensure that patients with chronic conditions (COPD, CHF, A1-C, Substance Abuse) have continuity of care to avoid readmission and relapse.**

Due to the Covid restrictions in place over the last two-plus years, we have not held in person meetings in over two years. Zoom or its technological equivalent has been the tool of choice to keep the monthly PFAC meetings functional and with a purpose. We have just held our first in-person meeting in over two years in September 2022. The use of technology was invaluable during this time.**

**27. The five greatest challenges the PFAC had in FY 2022:**

**Challenge 1:** The consequential impact of Covid still has kept members of various hospital committees and boards from meeting in person. So much more can be accomplished when meeting in person vs the more formal presentations that occur over internet calls.

**Challenge 2:** Giving Narcan kits/training in use to inpatients hospitalized with substance abuse upon discharge. This is a differing standard of care from the ED discharged patients.

**Challenge 3:** Coordination of care for substance abuse patients into the community treatment centers to ensure that as much as possible, patients have active, ongoing and quality follow up in their treatment

**Challenge 4:**

**Challenge 5:**

N/A – we did not encounter any challenges in FY 2022

**29. How do members on these hospital-wide committees or projects report back to the PFAC about their work?**

PFAC members who are also members of subcommittees report back to the PFAC, or members of hospital-wide committees are invited to discuss topics of concern.

**30. The PFAC provided advice or recommendations to the hospital on the following areas mentioned in the Massachusetts law (check all that apply):**

**33. Please explain why the hospital shared only the data you checked in Q 32 above:**

Hospital does not have a research program so this is unnecessary. The PFAC community membership typically does not feel knowledgeable enough about rewards and incentive program to provide meaningful input. The PFAC does discuss some staffing issues as part on ongoing monthly discussions regarding quality of care and follow up.

**34. Please describe how the PFAC was engaged in discussions around these data in #32 above and any resulting quality improvement initiatives:**

By state law, inpatients cannot be given prescription medications on discharge, only prescriptions as we do not have a dispensing pharmacy for discharged patients. **38. How are members of your PFAC approached about advising on research studies?**

- Researchers contact the PFAC
