Was Empathy Expressed to PT/Family?

Reporter CArE fields in RL6

One conditional field can help you better understand what happened during the incident, and remind staff that communication is key!

Potential CARE Case?

File ID	Responsible Owner Name	Display Name	Event Date	Entered Date	Brief Factual Description	Severity Level (Reported)	Was This Event Communicated to Patient/Family?	Age (Integer)	Person Affected Gender	Race
246	Cheryle Totte			10-02-2014	pt attempted OOB to bathroom. has RLE weakness at baseline. pt reports right leg "gave out". used call bell to report that he had fallen. was found sitting on the floor at bedside.	E. Harm - Temporary, Intervention Needed	No	53	Male	<N/S>
1920	Mary Fay			10-25-2014	I received a page from my patient in 16-2 and entered the room to answer her call. I found the patient in 16-1 supine, on the floor.	E. Harm - Temporary, Intervention Needed	Yes	80	Female	<N/S>
2224	Stacey Lunetta			11-05-2014	Patient was seen on floor for a GYN visit. Patient sent down to Radiology for a diagnostic exam. Patient is allergic to fruit and she was given a contrast drink that has Bananas in it even after she explained she was allergic to fruit and is documented. Patient began to itch and have a reaction to contrast. Patient was sent alone back from Radiology with these symptoms alone. Patient itching and feeling light headed. Patient transferred from unit to ER.	E. Harm - Temporary, Intervention Needed	Yes	34	Female	<N/S>

Tracking your cases: Add a field on the management form (both feedback and risk) and run a report

Use a field as a "trigger" to get all the CARE cases in one place
