

MASSACHUSETTS HEALTHCARE SAFETY AND QUALITY CONSORTIUM

Member organizations and representatives, as of April 2023

The Massachusetts Healthcare Safety and Quality Consortium is a public-private partnership of three dozen health care stakeholder organizations convened by the Betsy Lehman Center in 2019 in response to research showing tens of thousands of preventable harm events in a single year in settings across the Massachusetts continuum of care.

The Consortium produced the *Roadmap to Health Care Safety for Massachusetts*, a long-term plan to achieve a health care system in which providers — in partnership with patients, policymakers, payers, and others — continuously strive to eliminate preventable harm in every place where care is delivered in the Commonwealth.
